

**INTERSOLAR Messe München Exhibition Center in Munich, Germany,
on October 6–8, 2021**

Intersolar Europe is the world's leading exhibition for the solar industry. It takes place at the Messe München Exhibition Center in Munich, Germany and focuses on the areas of photovoltaics, solar thermal technologies, solar power plants, as well as grid infrastructure and solutions for the integration of renewable energy.

DRES2Market Partners took part in the Intersolar Europe on October 6–8, 2021.

They had a great opportunity to discuss and promote the results and achievements of their work.

The project's leaflets were also available at Intersolar Europe 2021 fair at the Polish Photovoltaic Association's (Polish: Polskie Towarzystwo Fotowoltaiczne), stand No: A6.555.

The stand with DRES2Market leaflets enjoyed wide interest (please see pictures above).

We are looking forward to the next Intersolar Europe, which is scheduled for 11–13 of May, 2022.
