

The DRES2Market project Partners held a second project meeting on October 21 and 22, 2021.

The meeting was hosted by Aix Marseille University. The partners presented and discussed the progress and results obtained in the various work packages, the ongoing tasks as well as developed the farther project activities to be implemented in.

The first day of the meeting was dedicated to the presentation and discussion of the tasks completed in Work Package 2 - Proposing technical solutions and market approaches to enable RES Penetration and Work Package 3 - Analysis, compare and identifying the most promising solutions for large penetration of RES in the electricity market and in the supply of ancillary services.

The Partners had the opportunity to discuss all the aspects of the tasks developed in this work packages.

The second day of the meeting was devoted to discussion on guidelines for the future large penetration of RES in the electricity markets and the strategy of the development of dissemination and communication activities. The on - line meeting with the Stakeholders Committee Members also took place.

During these two days of the meeting Partners discussed the project tasks and further steps to be undertaken in the coming months.

The second project meeting was a great opportunity for the whole team to meet together in person. Thanks to everyone!!!

Agenda and the photo gallery are below.

Agenda
