

## DRES2Market Dissemination and Communication Activities at the Solarplaza Summit Poland, 2022

The event "Solarplaza Summit Poland" took place on May 26<sup>th</sup>, 2022 in Warsaw, Poland. The event featured conference and network meetings between participants of the Solarplaza summit. The DRES2Market project partners participated in this event.

Mr. Marcin Roszkowski - DRES2Market Stakeholder Member together with Mr. Christian Schnell from Dentons, Mr. Filip Piasecki from Aurora Energy Research, Mr. Paweł Wróbel from RE-Source Poland and Mr. Piotr Sokołowski from P&Q discussed topics related to: "Auctions or PPAs: what is the market appetite?" during the conference second session. Networking time was an excellent opportunity to provide relevant information on DRES2Market project among interested conference participants and conference exhibitors and to discuss the most important issues related to the solar energy in Poland.

During the Solarplaza Summit Poland event the DRES2Market project objectives and goals, as well as recommendations for solutions increasing the penetration of large-scale solar and onshore wind energy in distribution networks were discussed.

Photos from the Solarplaza Summit Poland is presented below.
